Re: Administrative Case No. 2007-00477

Dear Mr. Core:

The Commission has entered an Order today initiating an investigation into four energy and regulatory issues set forth by the General Assembly in Section 50 of House Bill 1, enacted during the Second Extraordinary Session of 2007. A copy of the Order is enclosed for your convenience.

To assist in this investigation, the Commission has retained the services of Overland Consulting with its President, Howard Lubow, designated as Project Director. The consultant will work closely with the Commission's Management Audits Branch which is managed by John Rogness.

One of the initial steps in this project is for the consultant to interview stakeholders, including appropriate individuals at your utility. Since time is of the essence, the Commission wants to thank you in advance for making your senior staff available to our consultant for these interviews which will be held during the week of December 17, 2007.

In order to schedule the interviews and determine the appropriate individuals to be in attendance, we request that you designate one person to be your point of contact. Please advise me in writing by November 28, 2007 of the name, title, and phone number of your point of contact for this project.

If you have any questions regarding this matter, please contact me at your convenience.

Sincerely,

Beth O'Donnell
Executive Director
